## TECHNICAL SKILLS

### • Frontend Development

HTML  
CSS  
ReactJS  
Flutter  
Bootstrap  
Tailwind CSS

### • Backend Development

PHP

### • OOP Concepts

Java

### • Database

### • Github

# PROJECTS

## Individual

- Portfolio Website

ReactJS | HTML | CSS

Personal Portfolio Website.
- Weather Application

Python

A user-friendly, simple weather app built with Python and Tkinter, offering real-time global weather updates with an intuitive interface.
- Currency Exchange Web Application

ReactJS | HTML | CSS | TailwindCSS

User-Friendly currency exchange app with real-time rates and easy global currency conversions.
- GameSeek

TypeScript | Chakra UI

A React web app for searching and discovering video games.

## Group

- BrandSpark - AI based Brand Promoting Web Application

ReactJS | HTML | CSS | MongoDB

AI-powered, user-friendly app for creating logos, generating brand names, and crafting effective brand promotions with ease and precision.

My Contributions

●

Front-End: Developed a responsive UI with AI-driven features for logos, brand names, and promotions.

●

UI Design: Created an intuitive interface for seamless brand creation and user experience.

●

Login/Signup: Built secure login, signup, and expert pages for enhanced usability.

●

Library Management System

Full-Stack | ReactJS | Express & PHP

A modern, user-friendly library management app built with ReactJS, Express, PHP, and a robust database for streamlined book tracking and user management.

My Contributions

●

Front-End: Built a responsive UI with ReactJS for smooth interactions.

●

Back-End: Used Express and PHP for secure server-side logic.

●

Database: Managed and optimized the library records database.

●

UI/UX: Designed a modern, intuitive interface for enhanced user experience.

●

Mora UI/UX Project (Pixel Pioneers)

Figma

A Figma-based project focused on Sri Lankan tourism, where we designed the mobile app frontend and website frontend, creating engaging and user-friendly interfaces.
